THE HARVEST OF THE HEAD. - When the comb acts as a rake, bringing away a roll of parted fibers every time it passes through the hair, baldness would soon be inevitable. But even in this case, forlorn as it may seem, the mischief can be arrested, the loss repaired. Lyon's Kathairon, sided by a brisk application of the brush to promote the absorption of the fluid by the scalp, will stop the thinning-out process in forty-eight hours. The roots from which the dead filaments were shed will soon be re-endowed with vitality, and a new growth will speedily spring up on the denuded places. This work of reproduction will go on until the damage completely repaired, and the luxuriant crop of hair thus produced will never wither or fall out as long as the vitilizing application is regularly continued.
